By the use of these Pills the periodic attacks of Nervous or Sick Headache may be prevented, and if taken at the commencement of an attack, immediately relieved from sickness will be obtained.

They solvate full in removing the Nervous and Headache to which females are so much subject.

They act generally upon the headache-producing cholerics.

For Literary men, Students, Delicate Females, and all persons of sedentary habits, they are valuable as a laxative, in improving the appetite, giving tone and vigor to the digestive organs, and restoring the natural elasticity and strength of the whole system.

The CEPHALIC PILLS are the result of long investigation and carefully conducted experiments, having been in use many years, during which time they have prevented and relieved a vast amount of pain and suffering from headache, whether originating in the nervous system or from a deranged state of the stomach.

They are entirely vegetable in their composition, and may be taken at all times with perfect safety, without making any change of diet and the absence of any disagreeable taste renders it easy to administer them to children.
